re: Obtaining Files for Ministry Use

Dear Pastors and/or Church Leaders-

Recently we had hundreds of pastors attend our Pastors 2010, a gathering for pastors where our Senior Pastors, Jim and Deborah Cobrae shared from their own lives the heart of pastoring in today's world. One of the breakout sessions had to do with Aggressive Discipleship, which followed the Aggressive Altar Calls we give at the Rock.

What we want to make available to you is the materials we use in our SPT Ministry. This will help you get started with training and or building a *follow-up ministry*. As you review these materials keep in mind that you are free to use them for ministry as you see fit. In other words...edit the names, places, and or titles in the word document (.doc) files and print them for your church use. Be sure to create your own cover and change the hours and location of your services found in the rear of the booklets. You can obtain these files from our website www.rockchurch.com then click on **Ministries, SPT Ministry**, then find the menu to the right and click on **Church Resources**. Some items are pending copyright due to the graphical artwork that they contain so please be aware of this.

On a technical note let me help you. Have someone in your church who is *computer-printer savvy* work out how to print these files. I say this because *print drivers* and *application versions* are all a bit different and you will need someone who is knowledgeable enough to update, convert or ask the right questions to be able to print out these materials properly. Also note that any PDF documents can easily be printed but not edited. Should you want an editable file (i.e. PDF) please email and I will be glad to make it available to you. Also, if you are not able to print these materials yourselves I recommend copying the files to a flash drive and take to your local printer (for example Kinkos).

It is our desire to help as much as possible. Unfortunately we are simply not able to print, store, package and ship materials. If you need samples for immediate start-up training please email me.

Sincerely yours,

M. David Simmons

Dave Simmons

Associate Pastor

SPT Ministry
